
YOUNG CHILDREN & GLOBAL CITIZENSHIP

THE WHOLE CHILD

What do I need?

→ What else do young children need in a global context?

→ What might this mean in practice?

Our communities are more and more visibly globalised: in what we see and read; what we eat, wear, hear and buy; who our families and neighbours are; with increased worldwide travel; with environmental changes.

All children will have ideas and feelings about these things; about themselves and those around them; about how they 'feel at home in the world'. They need space to explore this in a safe and supported way.
